# WHO WE ARE

**SteelXperts (PTY) LTD** is a leading provider of light steel fabrication services for solar structures. **We specialize in designing, engineering, and manufacturing steel structures that support solar panels, providing our clients with cost-effective and efficient solutions for their renewable energy needs.**

Our team of experienced engineers and fabricators have extensive knowledge of the solar industry and are committed to delivering high-quality products that meet or exceed our clients' expectations. We use state-of-the-art software tools to design and analyse our structures, ensuring that they are structurally sound, safe, and reliable.

**At SteelXperts (PTY) LTD , we take pride in our commitment to sustainability.** Our steel structures are made from 100% recyclable materials, which reduces our carbon footprint and minimizes waste. We also strive to minimize our energy consumption and use renewable energy sources whenever possible.

---

## OUR SERVICES

We offer a wide range of steel fabrication services, including custom design and engineering, manufacturing, and installation. Our products include ground-mounted solar structures, rooftop solar structures, and solar carport structures. **Each product is designed to meet the specific needs of our clients and is manufactured to the highest standards of quality and safety.**

**Our dedication to customer satisfaction is paramount. We work closely with our clients to understand their needs and provide them with the best possible solutions. Our team is always available to answer questions, provide support, and ensure that our clients are completely satisfied with our products and services.**

At **SteelXperts(PTY) LTD**, we are committed to making a positive impact on the world by providing sustainable solutions that help our clients reduce their carbon footprint and contribute to a greener future.
